

Unaudited Interim Financial Statements

First quarter, ended June 30, 2011

FINANCIAL ANALYSIS	2
STATEMENT OF MANAGEMENT RESPONSIBILITY	6
UNAUDITED INTERIM FINANCIAL STATEMENTS	7
- FIRST QUARTER, ENDED JUNE 30, 2011	

FINANCIAL ANALYSIS

The following section should be read in conjunction with the Corporation's unaudited interim financial statements for the first quarter, ended June 30, 2011, and the related notes.

Statement of operations (in thousands of dollars)

	Results as at June 30,	Budget as at June 30,	Variance bet and b	udget	Results as at June 30,
	2011	2011	\$	%	2010
Operating revenues	4,524	4,641	-117	-2.5	4,475
Amortization of deferred contributions	-	-	-	-	-
Total revenues	4,524	4,641			4,475
Operating expenditures (before depreciation)	7,851	9,147	-1,296	-14.2	8,315
Depreciation of capital assets	2,462	2,273	189	8.3	3,613
Total expenditures	10,313	11,420	-1,107	-9.7	11,928

The operating deficit (before depreciation) amounts to \$3,327 K compared with \$3,840 K in 2009–2010, a decrease of \$513 K (13.4%). This decrease is attributable to an increase of \$49 K in operating revenues, combined with a reduction of \$464 K in expenditures, most of which is due to lower labour costs stemming from several currently vacant positions and to lower advertising costs at this point in the year.

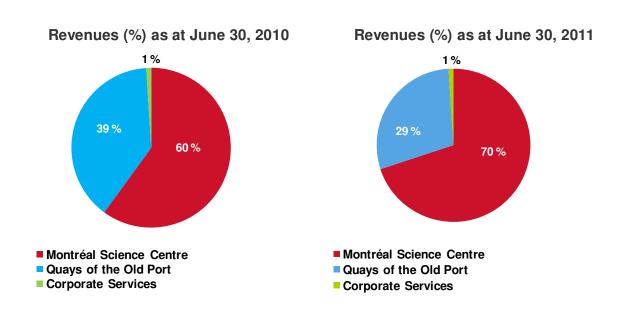

The operating deficit (before depreciation) is \$1,179 K lower than the \$4,506 K budgeted. This variance is attributable to a favourable variance of 2.5% in revenues and a reduction of 14.2% in our operating expenditures, due primarily to lower labour costs related to several unfilled positions, combined with lower-then-planned advertising costs at this point in the year.

Revenues (in thousands of dollars)

	Results as at June 30,				Results as at June 30,
	2011	2011	\$	%	2010
Montréal Science Centre	3,178	3,095	83	2.7	2,682
Quays of the Old Port	1,327	1,522	-195	-12.8	1,744
Corporate services	19	24	-5	-20.8	49
Total revenues	4,524	4,641	-117	-2.5	4,475

Self-generated revenues related to the Corporation's products as at June 30, 2011 amounted to \$4,524 K compared with \$4,475 K as at June 30, 2010, an increase of 1.1% or \$49 K. The arrival of the exhibition *Indiana Jones* and improved IMAX[®]TELUS Theatre performance, versus a reduction in parking revenues due to the later arrival of the Cirque du Soleil this year explain these variances.

Total revenues as at June 30, 2011 were \$117 K lower than set out in the Corporate Plan. The primary variance stems from the unfavourable parking results.

Montréal Science Centre

Programming revenues, which include revenues from the IMAX[®]TELUS Theatre and exhibitions, totalled \$1.742 K in 2011–2012, compared with \$1.233 K in 2010-2011. This increase is attributable to the exhibition *Indiana Jones* and improved cinema performance. Corporate rentals have also increased this year.

Quays of the Old Port

967
516
425 364
201 283
131 128

Parking Events and concessions and donations

Parking revenues decreased by \$451 K (46.6%). This decrease is attributable, in particular, to the later arrival of the Cirque du Soleil this year and to the closure of the Clock Tower Quay for major renovations until midJune. Revenues from events and concessions increased by \$61 K (16.8%), primarily due to the arrival of new concession holders.

Expenditures (in thousands of dollars)

	Results as at June 30,	Budget as at June 30,	Variance between results and budget		Results as at June 30,
	2011	2011	\$	%	2010
Montréal Science Centre	3,982	4,295	-313	-7.3	4,106
Quays of the Old Port	2,623	3,096	-473	-15.3	2,843
Corporate services	1,246	1,756	-510	-29.0	1,366
Total operating expenditures (before depreciation)	7,851	9,147	-1,296	-14.2	8,315
Depreciation of capital assets	2,462	2,273	189	8.3	3,613
Total expenditures	10,313	11,420	-1,107	-9.7	11,928

Total operating expenditures (before depreciation) as at June 30, 2011 decreased by \$454 K (5.6%) compared with June 30, 2010, due primarily to the effect of unfilled positions and lower advertising costs after three months. Notable is a decrease in operating expenditures (before depreciation) of \$1.296 K (14.2%) compared to the budget in the 2011–2012 Corporate Plan. This also is due to unfilled positions, publicity costs and professional services.

Montréal Science Centre

Expenditures related to the Montréal Science Centre were \$3.982 K, a decrease of \$124 K (3.0%) compared with June 2010. The variations related primarily to advertising costs after three months.

Quays of the Old Port

Expenditures related to the Quays of the Old Port were \$2.623 K as at June 30, 2011, a decrease of \$220 K (7.7%) compared with June 2010. Once again, this was primarily due to the effect of advertising costs.

Corporate services

Expenditures related to corporate services totalled \$1.246 K as at June 30, 2011, a reduction of \$120 K (8.8%) compared with June 2010. This variation was due primarily to unfilled positions at the beginning of the year.

STATEMENT OF MANAGEMENT RESPONSIBILITY

Management is responsible for the preparation and fair presentation of these quarterly financial statements in accordance with the Treasury Board of Canada Standard on Quarterly Financial Reports for Crown Corporations, and for such internal controls as management determines is necessary to enable the preparation of quarterly financial statements that are free from material misstatement. Management is also responsible for ensuring all other information in this quarterly financial report is consistent, where appropriate, with the quarterly financial statements.

Based on our knowledge, these unaudited quarterly financial statements present fairly, in all material respects, the financial position, results of operations and cash flows of the Corporation, as at the date of and for the periods presented in the quarterly financial statements.

AUTHORITY AND ACTIVITIES

The Old Port of Montréal Corporation Inc. (hereinafter referred to as the "Corporation") was incorporated on November 26, 1981 under the *Canada Business Corporations Act* and is a wholly-owned subsidiary of Canada Lands Company Limited, a Crown corporation named in Part I of Schedule III of the *Financial Administration Act*. In accordance with Order in Council P.C. 1987-86, the Old Port of Montréal Corporation Inc. is subject to certain provisions of the *Financial Administration Act* as if it were a parent Crown corporation, agent of the Crown, listed in Part I of Schedule III of the *Financial Administration Act*.

The Corporation's mandate is to develop and promote the development of the lands of the Old Port of Montréal, and to administer, manage and maintain the properties of Her Majesty located thereon.

2. BASIS FOR PREPARATION OF THE FINANCIAL STATEMENT

This financial statement is the first interim financial statement prepared under the Public Sector Accounting Standards (PSAS). They should be read in conjunction with the most recent financial statements prepared under the old frame of reference.

The conversion to the new system took effect on April 1, 2011, with application retroactive to April 1, 2010. The impact on the accumulated Surplus of Canada as at April 1, 2010, as at June 30, 2010, and as at March 31, 2011 is presented in Note 5, and the related significant accounting principles in Note 4.

2.1. Exceptions to retroactive application

The Corporation has ensured that the estimates reflected in the statement of financial position prepared according to the PSAS are consistent with those of the balance sheet of the same date prepared according to the old accounting method (Generally Accepted Accounting Principles—GAAP) adjusted, where necessary, for any differences in accounting conventions.

The estimates required by PSAS that were not necessary under Canada's GAAP reflect the conditions that existed on the date of the initial statement of financial position prepared according to the PSAS.

2.2. Applied Exemptions

In compliance with section PS 2125, First-time Adoption by Government Organizations, the Corporation has chosen to apply the exemption for tangible capital asset impairment. The criteria and methods of impairment of tangible capital assets set out in section PS 3150 are therefore applied prospectively starting from the date of transition.

No other exemption under the new standard applies to the Corporation

Unaudited Interim Quarterly Financial Statements First Quarter, ending June 30, 2011

STANDARDS CHANGES

3.1. Published sections adopted in advance

Section PS 3410, Government Transfers

Section PS 3410 on government transfers was revised by the Public Sector Accounting Board (PSAB) in December 2010.

The primary changes deal with recognition criteria for government transfers by the recipient, which affects the accounting treatment of parliamentary appropriations received by the Corporation.

These amendments apply to fiscal periods beginning April 1, 2012, and their early adoption is encouraged. The Corporation therefore decided to apply it in advance for the fiscal year ending March 31, 2012.

Section PS 3450, Financial Instruments

The PSAB approved the new Section PS 3450, Financial Instruments, in March, 2011, along with related amendments to Section PS 1200, Financial Statement Presentation.

Section PS 3450 comes into effect on April 1, 2012 for government organizations, and on April 1, 2015 for governments. Early adoption is permitted. Government and government organizations adopt Section PS 3450 during the same fiscal period that they adopt Section PS 2601, Foreign Currency Translation.

The Corporation adopted this standard in advance for the fiscal year ending March 31, 2012, and this did not have a significant impact on its financial statements.

Section PS 2601, Foreign Currency Translation

The PSAB issued Section PS 2601 in March 2011, replacing the current Section PS 2600, Foreign Currency translation. Section PS 2601 comes into effect on April 1, 2012 for government organizations, and on April 1, 2015 for governments. Early adoption is permitted. Government and government organizations adopt Section PS 2601 during the same fiscal period that they adopt Section PS 3450, Financial Instruments.

As the Corporation does not have significant transactions in foreign currencies, these modifications had no impact on the OPMC's financial statements. The Corporation did, however, decide to adopt this standard in advance for the fiscal year ending March 31, 2012.

Unaudited Interim Quarterly Financial Statements First Quarter, ending June 30, 2011

Section PS 1201, Financial Statement Presentation

The PSAB approved Section PS 1201 in March 2011, replacing the current Section PS 1200, Financial Statement Presentation. Section PS 1201 comes into effect on April 1, 2012 for government organizations, and on April 1, 2015 for governments. Early adoption is permitted.

The new section introduces a new statement of remeasurement gains and losses, in connection with the new sections on financial instruments and foreign currency translation. The Corporation has concluded that there is no significant impact on the OPMC's financial statements.

Government organizations must adopt Section PS 1201 during the same fiscal period as Section PS 2601, Foreign Currency Translation, and Section PS 3450, Financial Instruments. The Corporation therefore decided to apply Section PS 1201 in advance for the fiscal year ending March 31, 2012.

3.2. Published sections not adopted by the Corporation

Section PS 3260, Liability for Contaminated Sites

The PSAB issued Section PS 3260, which establishes standards for accounting for and presenting a liability related to the remediation of contaminated sites. This clarifies the application of the provisions set out in sections PS 3300, Contingent Liabilities, and PS 3390, Contractual Obligations, but does not replace them.

Application of this section is mandatory starting April 1, 2014. The Corporation does not foresee that its adoption will affect its financial statements.

Section PS 3510, Tax Revenue

The PSAB issued Section PS 3510, which establishes standards on accounting for and reporting related to tax revenue in government financial statements.

Adoption of this section is mandatory starting April 1, 2012. The Corporation does not foresee that its adoption will affect its financial statements.

Sections PS 4200 to 4270, accounting standards applicable to not-for-profit organizations

The PSAB issued chapters PS 4200 to 4270 in September 2010, which apply solely to public-sector not-for-profit organizations. These standards come into effect for fiscal periods starting January 1, 2012.

Given that these sections concern only not-for-profit organizations, they are not applicable to the Corporation's financial statements.

Unaudited Interim Quarterly Financial Statements First Quarter, ending June 30, 2011

4. SIGNIFICANT ACCOUNTING POLICIES

The financial statements have been prepared in accordance with public sector accounting standards. Significant accounting policies are described below.

4.1. Cash

The Corporation's cash position is composed entirely of cash on hand

4.2. Investments

Investments are made up of deposit certificates redeemable at any time and maturing less than 12 months from the transaction date.

4.3. Financial instruments

All of the Corporation's financial instruments are accounted for at cost or at amortized cost in the Statement of Financial Position.

Financial assets are made up of assets that could be used to reimburse existing debts or to fund future activities and that are not earmarked for use in the normal course of the Corporation's activities. Investments are recognized at their initial cost. Other receivables are listed under assets as amounts receivable, net of provisions for bad debts.

Accounts payable and accrued liabilities, along with balances with related parties, are recorded as the amount of the initial invoice. Repayable parliamentary appropriations are recorded as the amount of the surplus of expenditures compared with the parliamentary appropriations received during the fiscal period.

Unaudited Interim Quarterly Financial Statements First Quarter, ending June 30, 2011

4.4. Property, plant and equipment

With the exception of land, property, plant and equipment are recorded at their original cost and are depreciated on a straight-line basis over their estimated useful lives, starting on the date they are put into service. Moreover, all property, plant and equipment transferred to the OPMC by the PWGSC on November 2, 2009, are listed at their book value as submitted by the PWGSC. Depreciable property, plant and equipment are depreciated on a straight-line basis over their estimated useful lives as follows:

Buildings and structures

Buildings	15 to 25 years
Bridges, quays and structures	15 to 40 years
Amenities and facilities	
Leasehold improvements	15 to 25 years or on duration of lease
Amenities and facilities related to land	15 to 25 years
Signage	4 to 10 years
Street furniture	15 to 25 years
Furniture, materials and equipment	
Automotive equipment	5 years
Office furniture and equipment	7 years
Machinery, tooling and equipment	10 years
Computer hardware and software	
Hardware	3 years
Software	3 years
Exhibitions	
Exhibitions	Dependant on duration of exhibition

When conditions indicate that a tangible capital asset no longer contributes to the Corporation's ability to provide goods and services, or that the value of future economic benefits from the capital asset is lower than its net book value, the cost of the asset must be reduced to reflect its reduction in value if that reduction is expected to be permanent.

Accrued loss in value is measured as the surplus of the asset's book value over the revised estimated value of the asset's remaining service potential for the Corporation.

Unaudited Interim Quarterly Financial Statements First Quarter, ending June 30, 2011

4.5. Revenue

Quays, Montréal Science Centre and corporate services

Revenues from programming sales and parking, concession revenues, and other revenues, including La Balade, the Port d'Escale and the skating rink, are recorded during the fiscal year in which the services are rendered. Investment interest revenue is recorded on an accrual basis.

The Corporation has signed agreements with sponsors that provide cash, products, advertising and other services in exchange for various benefits, including exclusive marketing rights and visibility. Sponsorships are recorded in the fiscal period to which they relate. Non-monetary transactions are recorded at fair market value.

Donations and sponsorships restricted by the sponsor for specific uses are recorded under deferred contributions, while the rest are recorded under revenues.

4.6. Parliamentary appropriations

The Government of Canada funds the Corporation through parliamentary appropriations, which must be used during the fiscal period in which they are granted; otherwise, the Corporation must repay the unused portion.

This requirement constitutes a provision describing how a recipient should use the transferred resources or what actions must be undertaken to retain the transfer.

Government transfers that are accompanied by stipulations are recorded by the Corporation as revenue in the fiscal period for which the appropriations are approved and in which the Corporation satisfies all admissibility criteria, except where the transfer creates an obligation that amounts to a liability.

The appropriations are used during the fiscal period to finance operating expenditures (operations) and to acquire capital assets (investments).

Funds assigned to operations offset expenditures for the fiscal period.

Funds assigned to investments create a liability for the Corporation commensurate with an obligation to use the assets acquired to provide services. They are therefore deferred to liabilities and recorded in the statement at the same rate as the depreciation of the capital property financed thereby.

Any surplus in funding over expenditures and investments carried out over the fiscal period results in the recording of a liability for repayable parliamentary appropriations.

Unaudited Interim Quarterly Financial Statements First Quarter, ending June 30, 2011

4.7. Deferred contributions

The Corporation follows the deferral method of accounting for contributions, which are mainly in the form of donations and sponsorships. Unrestricted contributions are recorded as revenue when they are received or receivable provided that collection is reasonably assured.

Externally restricted contributions are deferred and recorded as revenue during the fiscal year in which the underlying expenses are incurred. These contributions are intended for exhibition renewal or other activities specific to the Montréal Science Centre. Contributions restricted for the acquisition of depreciable capital assets are amortized over the estimated useful lives of the assets acquired.

Donations from the Foundation of the Montréal Science Centre are recorded as revenue during the fiscal year in which they are received or receivable.

4.8. Retirement savings plan

The Corporation has set up a group retirement savings plan that provides for the creation of a single trust with a corporation in the private sector to administer the contributions it receives to provide retirement income for employees through individually registered retirement savings plans. The Corporation acts solely as an agent and assumes no financial responsibility or obligation regarding this plan.

4.9. Foreign currency translation

Upon their initial recording, operations in foreign currencies are converted into Canadian dollars at the market exchange rate in effect on the transaction date.

Assets and monetary liabilities made out in foreign currencies are re-evaluated at the exchange rate in effect on the date of the financial statement.

Non-monetary items made out in foreign currencies are kept at their historic exchange rate, unless they are financial instruments classified as being at a fair value.

4.10. Measurement uncertainty

The preparation of financial statements in accordance with public sector accounting standards requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as at the date of the financial statements and the reported amounts of revenues and expenditures declared during the reporting period. Allowances for bad debts, claims from suppliers, accrued liabilities and the useful life of tangible capital property are the most significant items for which estimates must be made. Actual figures may differ substantially from these estimates.

Unaudited Interim Quarterly Financial Statements First Quarter, ending June 30, 2011

5. FIRST-TIME ADOPTION OF PSAS

As mentioned in Note 2, these financial statements are the first ones prepared by the Corporation using public sector accounting standards. In accordance with Section PS 2125, First-time Adoption by Government Organizations, the Corporation has prepared a detailed account reconciliation in order to illustrate the effects of the conversion on its financial position and is comparative results.

5.1. Reconciliation of financial position as at transition date

The table below illustrates the effects of the conversion on the accumulated Surplus of Canada as at the transition date, April 1, 2010, and at the adoption date, March 31, 2011.

Equity reconciliation	Cf.	March 31, 2011	June 30, 2010	April 1, 2010
Retained earnings – according to GAAP		1,660	1,587	1,660
Adjustments under PSAS	i	-	-	-
Accumulated Surplus of Canada – under PSAS		1,660	1,587	1,660

On these same dates, the Corporation also made the following reclassifications:

Reclassifications due to conversion	Cf.	March 31, 2011	June 30, 2010	April 1, 2010
Cash				
GAAP – Restricted cash	ii	(257)	(13)	(130)
PSAS – Cash		257	13	130
Software				
GAAP – Intangible assets	iii	(2,061)	-	(364)
PSAS - Tangible capital assets		2,061	-	364
Deferred contributions				
GAAP - Current portion of deferred contributions	iv	1,474	1 834	1,833
PSAS – Deferred contributions		(1,474)	(1,834)	(1,833)

Unaudited Interim Quarterly Financial Statements First Quarter, ending June 30, 2011

5.2. Reconciliation of financial statements as at transition date

The table below illustrates the effects of the conversion on the fiscal-period surplus for the comparison period, i.e., the 12 months ended March 31, 2011.

Reconciliation of comparative statement	Cf.	June 30, 2011	March 31, 2011
Net income - under GAAP		(67)	-
Adjustments under PSAS	i	-	-
Surplus (deficit) for fiscal period - under PSAS		(67)	-

5.3. Nature of adjustments and reclassifications

i. Adjustments affecting the accumulated Surplus of Canada

No adjustments affected either the accumulated Surplus of Canada as at the transition date or the surplus for the comparative period ended March 31, 2011.

ii. Cash

The PSAS standard on restricted assets requires that internally restricted assets not be recorded separately in the statement of financial position.

Restricted cash has therefore been merged with the overall cash balance. Details concerning restricted amounts appear in Note 6.

iii. Software

The public sector accounting standards do not recognize intangible assets as items in statement of financial position, with the exception of computer software, which are considered tangible capital assets.

As all of the Corporation's intangible assets consisted of software, this item was reclassified under tangible capital assets during the conversion.

iv. Deferred contributions

As the distinction between current and long-term deferred contributions is no longer required in the statement of financial position under the PSAS, the current portion has been folded into deferred contributions as a whole.

Unaudited Interim Quarterly Financial Statements First Quarter, ending June 30, 2011

6. CASH

	June 30, 2011	March 31, 2011	April 1, 2010
Unrestricted cash	555	1,041	498
Restricted cash	250	257	130
Cash	805	1,298	628

Restricted cash represents cash received that is externally restricted for the acquisition of capital assets or for other activities specific to the Montréal Science Centre.

The restricted cash balance represents amounts received whose considerations are recorded in the statement of financial position under deferred contributions, \$250 as at June 30, 2011 (\$257 as at March 31, 2011) (\$130 as at April 1, 2010).

7. INVESTMENTS

Investments include deposit certificates redeemable at any time, as follows:

	June 30, 2011	March 31, 2011	April 1, 2010
1.46%, falling due January 26, 2012	1,000	4,000	
1.28%, falling due June 10, 2012	2,000		
0.82%, falling due March 25, 2011			7,000
Investments	3,000	4,000	7,000

8. RECEIVABLES

	June 30, 2011	March 31, 2011	April 1, 2010
Clients	1,867	1,213	766
Other receivables	566	0	100
Receivables	2,433	1,213	866

Unaudited Interim Quarterly Financial Statements First Quarter, ending June 30, 2011

9. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

	June 30, 2011	March 31, 2011	April 1, 2010
Suppliers	2,866	4,887	8,587
Accrued costs	1,215	1,543	1,195
Other accounts payable	1,014	636	546
Accounts payable	5,095	7,066	10,328

10. RELATED-PARTY TRANSACTIONS

The Corporation is related in terms of common ownership to all Government of Canada departments, agencies and Crown corporations. The Corporation enters into transactions with these entities in the normal course of business. These transactions were recorded at the exchange amount, i.e., the value of the consideration paid or received, which was established and accepted by the related parties.

In thousands of dollars	June 30, 2011	March 31, 2011	April 1, 2010
PWGSC – debit balance	-	-	1,443

Provincial and federal museums	40	40	40
Other corporations	-	5	15
Accounts payable to related parties	234	2,285	55

Other than transactions mentioned elsewhere in the financial statements or of minimal significance, the Corporation conducted the following transactions with related entities:

Unaudited Interim Quarterly Financial Statements First Quarter, ending June 30, 2011

Landscaping work on the site

The PWGSC manages contracts based on the cost-plus method. For the quarter ended June 30, 2011, the cost of these contracts totalled \$0 (\$19 as at March 31, 2011) (\$23 as at April 1, 2010) and is included in Corporate service expenditures under Management and administrative services.

Under the terms of an agreement signed in April 2011, the PWGSC and the Corporation identified specific work to be done on its capital property. The PWGSC managed these projects according to the cost-plus method. The amount invoiced by the PWGSC for this work amounts to \$201 as at June 30, 2011 (\$6,102 as at March 31, 2011).

10.1. Rental of space

The Corporation signed an agreement with the Montréal Port Authority, beginning on January 1, 2007 and ending on December 31, 2011, covering the rental of space for parking facilities and administrative offices. Rental costs under this agreement amounted to \$162 as at June 30, 2011 (\$605 as at March 31, 2011) and are included in Quays expenditures under Maintenance, repairs, prevention and Parking.

10.2. Joint operations

The Corporation and federal and provincial museums are party to agreements for the sharing of exhibition production costs in the normal course of operations. The Corporation had a commitment under these agreements for \$565 for the quarter ended June 30, 2011 (\$565 as at March 31, 2011) (\$565 as at April 1, 2010). In this respect, an amount of \$200 (\$200 as at March 31, 2011) (\$200 as at April 1, 2010) is included in exhibitions under Tangible capital assets.

12. SEGMENTED INFORMATION

For financial reporting purposes, the two sectors representing the Corporation's main activities are the Quays and the Montréal Science Centre. Items that do not fall under these two sectors are grouped under the heading "Corporate services."

With regard to the Science Centre, the Corporation organizes permanent and temporary exhibitions to offer an interactive and pedagogical approach to the sciences, technology and innovation. The Science Centre is also home to an IMAX theatre, meeting spaces, and various commercial concessions.

With regard to the Quays, the Corporation showcases and maintains the historical, cultural and tourism heritage of the Old Port of Montréal, in particular by organizing events and seasonal activities.

14. FINANCIAL INSTRUMENTS RISKS

Credit risk

Credit risk is the risk that a party to a financial instrument will fail to meet one of its obligations, causing the other party to incur a financial loss. The Corporation's credit risk relates mainly to its receivables. The Corporation manages credit risk by monitoring and analyzing its balances receivable on an ongoing basis. Its exposure to bad debts is therefore insignificant; since there is no concentration of accounts receivable, credit risk is low.

The Corporation's maximum exposure to credit risk is equivalent to the book value of accounts receivable as at June 30, and the Corporation establishes an allowance for credit losses for all clients:

In thousands of dollars	June 30, 2011	March 31, 2011	April 1, 2010
Current - 30 days	1,288	907	653
31-90 days	792	185	129
91 days or more	385	153	110
Accounts receivable - Gross	2,465	1,245	892
Allowance – Opening balance	(32)	(26)	(171)
Expenditures for bad debts	-	(10)	-
Amounts written off and recoveries	-	4	145
Closing balance	(32)	(32)	(26)
Accounts receivable - Net	2,433	1,213	866

Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulties in honouring its commitments related to financial liabilities. The Corporation manages its liquidity risk such that it maintains a sufficient amount of cash on hand. The Corporation establishes budget and cash forecasts to ensure that it has the funds required to meet its obligations.

Unaudited Interim Quarterly Financial Statements First Quarter, ending June 30, 2011

Contractual deadlines for accounts payable as at June 30 are as follows:

	June 30, 2011	March 31, 2011	April 1, 2010
Current – 30 days	3,544	6,676	9,876
31-90 days	308	41	49
91 days or more	1,243	349	403
Total	5,095	7,066	10,328

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to market price variations. Market risk includes interest rate risk and exchange rate risk. The Corporation's investment policy provides for the investment of cash surpluses in top-quality redeemable term deposits.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flow of a financial instrument will fluctuate due to market interest-rate variations. To manage this risk, the Corporation invests in fixed-rate short-term certificates, meaning that interest-rate variations do not have a significant effect on net results.

Exchange rate risk

Exchange rate risk is the risk that the fair value or future cash flow of a financial instrument will fluctuate due to foreign currency exchange rate variations. Although some of the Corporation's transactions take place in US currency, given that they represent only a small portion of its expenditures, variations in the Canadian and US dollar exchange rate will not significantly affect the Corporation's net results, financial position or cash flow. The Corporation has not hedged its exposure to exchange rate risk.
