

T. REX: THE ULTIMATE PREDATOR

PRESS RELEASE

Montréal, April 30 2025

The Dinosaurs are Back at the Montréal Science Centre!

HEADLINES

- An exhibition about the mighty **T. rex and its superfamily** — a true fan favourite! — marks the **25th anniversary of the Montréal Science Centre** and will run from **May 1 to September 7, 2025**.
- **An interactive exhibition** organized by the American Museum of Natural History in New York!
- Featuring **five captivating zones** with **over 40 models and moulds**.
- An opportunity to explore **real fossils** and **replicas of dinosaur teeth and jaws** courtesy of McGill University's Redpath Museum, exhibition's collaborator and fossil lender, and Québec's largest natural history museum.
- Make a full day of it with a screening of the new film **T.REX 3D: Greatest of All Tyrants** at the Montréal Science Centre's IMAX@TELUS theatre, **opening May 1st!**

Come face to face with the greatest predator of all times!

Get ready for a breathtaking adventure where the Science Centre takes you back in time for chills and thrills and rumbles and roars! Enjoy an immersive double feature with the **new feature exhibition T. rex: The Ultimate Predator** and the IMAX@TELUS film **T.REX 3D** starring the biggest tyrannosaurus of all times!

Come discover the latest secrets and discoveries surrounding this most notorious dinosaur! Explore **five captivating zones** where you can watch this superpredator grow from a hatchling to a terrifyingly powerful full-grown adult. Marvel at **forty models and casts**, as well as life-sized dinosaurs and unbelievably realistic moulds.

The exhibition also features the **most scientifically accurate reproduction of a *T. rex*** ever shown!

Fun for All, Big and Small

Whether you're an avid dinosaur fan or just dino-curious, this spectacular adventure will amaze you with **over twenty engaging and interactive activities**. A totally immersive experience where you can **play the part of a paleontologist at a virtual research station, invent a roar for your very own *T. rex*, compare your eyesight with how these giant predators saw the world, and dig for fossils in excavation bins.**

Explore the **evolutionary family tree** of this impressive dinosaur and learn about its smaller and faster relatives thanks to models of three related species: ***Proceratosaurus*, *Dilong* and *Xiongguanlong***. Admire **real fossils**, touch **replicas of dinosaur jaws**, and learn more about the **tyrannosauruses that lived in Canada** thanks to a marvellous collaboration with McGill University's Redpath Museum.

Make it a full day and see the new IMAX®TELUS film *T.REX 3D: Greatest of All Tyrants*

Playing at the IMAX®TELUS theatre, embark on an epic adventure starting from Hell Creek in the Badlands of North Dakota and into a lost world where giants are still king, a captivating expedition into the land of the *T. rex*. Now, thanks to new scientific discoveries, the most notorious of predators is presented in an entirely new and stunning way in this most scientifically accurate portrait of the undisputed giant that reigned over the Cretaceous.
